

# Brightening C Complex

*Year-round skin and complexion formula*

## Description

Winter, spring, summer, and fall, your skin faces year-round exposure to environmental elements.

Extreme wind, heat, or cold can weaken the complexion, causing the appearance of sags and wrinkles. And no matter what season or what time of day, the weather has the ability to do damage, prematurely aging your appearance. These ravages can cause undesirable visual changes in the complexion, including texture changes and discoloration, as your skin is bombarded with free radicals.

The powerful, vitamin-C-enriched formula of Brightening C Complex begins working quickly to moisturize and strengthen the skin's natural defenses, improve texture and firmness, smooth fine lines and wrinkles, and brighten the complexion.

## Benefits

- Contains antioxidants for optimal skin health
- Improves the appearance of skin year-round by supporting the skin's natural defenses
- Daily anti-aging treatment helps smooth the appearance of fine lines and wrinkles
- Brightens skin tone for increased radiance
- Unique anhydrous (water-free) formulation glides luxuriously across skin, encapsulating a powerful form of vitamin C and delivering incredible complexion-enhancing benefits

## Recommended Use

Gently apply to the face, neck and décolletage twice daily after cleansing.

## Key Ingredients

- **Tetrahexyldecyl Ascorbate**—is a powerful antioxidant essential for collagen formation, a key structural protein of healthy looking skin – also supports the look of volume and resiliency, resulting in beautiful skin.
- **Cyclopentasiloxane**—One of many silicone types and known for its ability to lubricate and promote shine. Cyclopentasiloxane is also a skin-conditioning agent, emollient, and solvent.

# Brightening C Complex

(continued from previous page)

- **Dimethicone Crosspolymer**—A luxurious and high-tech polymer that provides unique velvety texture and dispersion, helps protect and maintain vitamin C potency in the formula, and acts as a fantastic carrier agent for the other ingredients, resulting in a high-performance product with a high-quality feel.
- **Tocopheryl Acetate**—The most common of the forms of vitamin E, used topically for its antioxidant properties and as a soothing agent, to enhance skin moisturization to protect the skin.
- **Citrus Aurantium Dulcis (Orange) Oil**—A source of vitamins, especially vitamin C which protects the complexion against free radicals and contributes a fresh smelling essence to the product.
- **Phenoxyethanol**—A preservative shown to have positive antimicrobial effects on the formula. The use of phenoxyethanol is shown to be more effective in combination with citrus oils.
- **Retinyl Palmitate**—Is a form of vitamin A with a small molecular structure capable of penetrating into the surface layers, improving appearance of uneven pigmentation, the appearance of fine lines and wrinkles, overall skin texture, tone and color, and hydration levels.
- **Helianthus Annuus Seed Oil (Sunflower)**—As a calming and soothing oil and acts as an emollient.

**Ingredients:** Cyclopentasiloxane, dimethicone crosspolymer, tetrahexyldecyl ascorbate, tocopheryl acetate, citrus aurantium dulcis (orange) oil, phenoxyethanol, retinyl palmitate, helianthus annuus (sunflower) seed oil.
