

# TrueTouch® Bio-Mist Hydrating Activator

Moisturizes, soothes, and tones the skin

## Description

TrueTouch® Bio-Mist Hydrating Activator is a refreshing facial mist that moisturizes, soothes, and tones the skin. Featuring *Haberlea rhodopensis*, a plant with unique rejuvenating properties, this hydrating spray creates a pathway to the skin, transporting moisture and nutrients while supporting skin's Natural Moisturizing Factor. Bio-Mist Hydrating Activator works in conjunction with other TrueTouch® skin care products and is engineered to promote the delivery of action ingredients that enrich your skin.

## Key Benefits

- Carries moisture and nutrients to the skin, keeping skin hydrated
- Moisturizes and protects skin's vitality by supporting its Natural Moisturizing Factor (NMF)
- Enhances skin's suppleness, improving the appearance and texture of the skin with both moisturizing and mild toning properties
- Works in conjunction with other TrueTouch® skin care products and is engineered to promote the delivery of action ingredients that enrich your skin with the right messages
- Features an EU-allergen friendly fragrance blend
- Dermatologist tested and approved

## Key Ingredients

**Haberlea Rhodopensis**—Known as the “resurrection plant” for its ability to revive itself after months of drought, this natural skin conditioning agent possesses super-hydrating properties that surround the skin with a protective moisture layer to moisturize skin and increase the appearance of surface cell vitality

**Natural Moisturizing Factor (NMF) Support Complex**—This complex provides components of the skin's NMF to help protect and support the skin's natural ability to retain moisture; it includes urea, saccharide hydrolysate, magnesium aspartate, glycine, alanine, and creatine

**Hydrolyzed Glycosaminoglycans**—This lower molecular weight compound increases the depth of hydration to skin's surface layer to lock in moisture

**Sodium PCA**—Derived from fruits, grasses, and vegetables, Sodium PCA is an important part of the skin's Natural Moisturizing Factor (NMF) and supports balanced moisture levels.

## Recommended Use

Mist a moderate amount on clean face, hands, and other desired areas. Can be gently massaged into skin. Additional mist can be applied after other TrueTouch® skin care or cosmetic products. Follow with the step #3 Target products for your skin concerns or step #4 Protect AM or Renew PM.
